

In re Appln. of ENSINGER et al.
Application No. 10/814,587

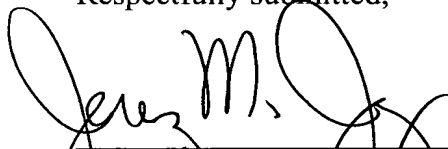

REMARKS

New claims 28-32 have been added to describe the invention more clearly. Claims 1-32 are now pending. No new matter has been added, the basis for the amended claim language may be found within the original specification, claims and drawings. New claims 28-32 are supported at, for example, page paragraphs 0059 - 0069, and paragraphs 0115 to 0122.

Additionally, since the application has been amended to claim previously unclaimed subject matter by an inventor not named in the application when an executed declaration under 37 CFR 1.63 was first filed, the inventorship is corrected (to add Lawrence Resavage as an inventor) herewith in accordance with 37 CFR 1.48(c).

If, in the opinion of the Examiner, a telephone conference would expedite the prosecution of the subject application, the Examiner is invited to call the undersigned attorney.

Respectfully submitted,

Jeremy M. Jay, Reg. No. 33,587
